INDEX TO VOLUME XIII

GENERAL ALPHABETICAL INDEX

Entries from the Synopsis of Periodical Literature are indicated by S. (Synopsis); from the Analysis of Current Electrochemical, Chemical and Metallurgical United States Patents by P. (Patents); from the Digest of Electrochemical United States Patents Prior to July, 1902, by D. (Digest).

A

ABBE Engineering Co. ... 691
Abbe, Paul O. ... 745, 918
Abrasive Material Co. ... 860
Abrasives, for grinding steel. Kalmus. (P.) ... 762
Accident prevention in the chemical industries. Keough ... 731
Acetone from hardwood distillations. ... 30
ACID:
——At close of 1915 ... 710
——Hydrochloric. Electrolysis ... 964
——Nitric. Electrolysis ... 964
——Orthophosphoric ... 964
——Sulphuric. Concentration. Mason ... 17
—— Concentration in silica dishes. Marshall ... 136
—— Contact process. Brockbank. (P.) ... 971
—— Electrolysis ... 964
—— Erecting plants ... 846
—— New agricultural use for ... 648
Acid process for electric steel. Müller. (S.) ... 640
Acid-resisting alloy. Parr ... 712
Acid treatment of gold precipitate. (S.) 118
Actinometer. Kershaw ... 970
Addicks, Lawrence (Photo) ... 315, 708
Advice to consulting metallurgists. Blythe 442
Aeration treatment of sewage. Bartow ... 901
AGITATOR:
——Dorr in series ... 13
——Dorr ... 91
——Dorr. (P.) ... 392
——For slime pulps. Vandercook (P.) ... 924
——Trent, At West End mill. Carpenter. 671
Agriculture, New use for sulphuric acid 648
Ainsworth & Sons, Wm. G. ... 745
Air compressor, Continuous running. Nash ... 460
Air-gun for repairing furnaces. 416, 529, 582
Air-lift pumping. Sullivan Machinery Co. ... 392
——Berggreen (S.) ... 507
Alarm, Bottle-filling. Hall ... 347
Alaska Gastineau Mill ... 273
Alaska Gold Mines Co. ... 16
Alaskan Railroad of the Government ... 271
Albumin, Coagulation by electrolytes. Bancroft ... 317
Alcohol, Rewards for methods of utilizing ... 352
Alcohol from hardwood distillation. French and Withrow ... 30
Alkalies, Electric furnace manufacture of. Acker (P.) ... 764
Alkalies, Situation at close of 1915 ... 710
Allis-Chalmers Co. ... 860
Allotropy of metals. Vosmaer ... 535
ALLOYS:
——Acid-resisting. Parr ... 721, 973
——Alloy steels. Norris ... 739
——Aluminium. McAdams (P.) ... 504, 570
——Aluminium, Bronze. Corse ... 712
——Copper, Titanium, Magnesium. Vickers (P.) ... 701
——Iron alloy for dynamo-electric purposes. Rübel (P.) ... 249
——Iron, Cobalt, Chromium. Hayes (P.) 701
——Nickel, Copper, Lead ... 644
——Patents relating to electroplating, 196, 268
——Platinum and Osmium. Zimmerman (P.) ... 762
——Pyrophoric alloy suit ... 145
——Rapid analysis of bearing metals and high-copper content alloy. Lutts 347
——Silver and cadmium ... 370
——Ulcoloy, A new copper-lead alloy ... 378
——Zirconium, Iron for lamp filaments Brown (P.) ... 924

ALLOYS: (Continued.)
All-sliming cyanide plants in California. Palmer ... 617
Alum for water purification. Hoover (S.) 508
Alumina in steel. Comstock ... 891
——Fitz Gerald ... 936
ALUMINIUM:
——Alloy. McAdams (P.) ... 504
——Alloy (P.) ... 570
——Autogenous welding. Pannell ... 712
——Bronze alloys. Corse ... 712
——Chloride process for refining high boiling petroleum oils. McAfee. 592
——Coating on different metals (coloriz-ing). Ruder ... 325
——Consumption in 1914 ... 546
——Die casting. Pack ... 712
——Effect of enhanced value on silver ... 526
——Furnace for producing alumina. Schwan (P.) ... 569
——Melting aluminium chips. Gillett ... 712
——Nitride manufacture. Bunet (P.) ... 504
——Nitride-Askenasy ... 966
——Plating, Patents relating to (D.) ... 341
——Plating On. Hall (P.) ... 570
——Price changes ... 706
——Southern Aluminium Co.'s plant ... 832
——Statistics ... 710
——Treatment of surfaces for plating. Roux (P.) ... 570
Alumino, Vanadium. Clark ... 712
Alunite deposits being developed in Utah. (See also Potash), 482, 526, 582
Amalgamation. Relative Efficiency of various amalgams. Thomson, Keffer ... 367
Amalgamation tailings. Determination of mercury ... 896
Amalgamation tests. Sharwood (S.) ... 927
Amendment of the Patent Laws ... 76
America. Electrochemistry in ... 1
American Bitumastic Enamels Co. ... 691
American Blower Co. ... 717, 918
American Chemical Society, 210, 351, 419, 494, 782
——New York Section ... 244
——New Orleans Meeting ... 280
——Southern California Section ... 530
——Seattle Meeting ... 587
——National Exposition ... 691
——New York Section ... 710
——University and Industry ... 885, 941
American Cyananid Co. ... 213
American Electrochemical Society in its external relations. (Pres. address.) Lidbury ... 277
American Electrochemical Society, 185, 210, 351, 419, 494, 782
——New York Section ... 211, 241, 884
——Niagara Falls Section ... 651, 776
——Atlantic City Meeting ... 314
——San Francisco Meeting ... 654
——Exposition of Chemical Industries. 691, 697, 700
American Electroplaters' Society ... 176
American Foundrymen's Association Convention, Atlantic City ... 712
American Hard Rubber Co. ... 691
American Institute of Chemical Engineers, 351, 418, 710
——Philadelphia meeting ... 41
——Los Angeles meeting ... 530
——San Francisco meeting ... 603
——Exposition of chemical industries. 691, 699
American Institute of Metals, Atlantic City meeting ... 712
American Institute of Mining Engineers, 98, 177, 208, 419, 887
——Montana Section ... 196
——San Francisco Meeting ... 654
——Columbia Section ... 904

American Iron and Steel Institute:
——Corrosion problem ... 420
——Cleveland meeting ... 830
American Mining Congress:
——Resolutions ... 42
——San Francisco ... 652
American Ore Flotation Co. ... 348
American Paper and Pulp Association, 520, 691, 700
American Potash Co. ... 860
American Shop Equipment Co. ... 586
American Smelting & Refining Co. ... 274
American Transformer Co. ... 691
American Vulcanized Fibre Co. ... 746
American Window Glass Co. ... 800
American Zinc, Lead and Smelting Co. ... 275
Ammonia, Lymn ammonia and producer-gas plant ... 456
Ammonium sulphate production in 1914 (S.) ... 638
Amorphous solids. Chemistry. Lewis ... 921
Ampco bronze ... 931
Ampere-hour meter for electrolytic works ... 191
Anaconda Copper Co. ... 207, 403, 526, 557
Anaconda, Powdered coal plant ... 333
Anaconda Copper Co., Powdered coal practice. Mathewson ... 728
ANALYSIS:
——Analoid method for phosphorus determination. (S.) ... 191
——Bearing metals and high copper content alloys. Lutts ... 346
——Brazilian monazite sand ... 403
——Carbon determination with platinum boats. Siever ... 525
——Carbon determination by the combustion method. Rich ... 347
——Carbon combustion apparatus. Cox (P.) ... 504
——Carbon and oxygen in steel and tungsten powder. Electric furnace. Johnson ... 17
——Chromium and vanadium in steel. Rich and Whittam ... 238
——Electro-analysis. Smith ... 327
——Determination of antimony, arsenic, bismuth, cadmium, copper, lead, silver, tin, by electrolysis. Schoch (S.) ... 568
——Estimation of aromatic hydro-carbons in cracked petroleum. Rittman, Twomey, Egloff ... 682
——Gold and silver in cyanide solutions. Bahney (S.) ... 252
——Gold-bearing cyanide solution (S.) ... 447
——Manganese in ferrovanadium. Clark. 155
——Mercury in amalgamation tailings ... 896
——Nickel. Calhane ... 8
——Quantitative blowpipe Richards ... 137
——Spectroscopic steel ... 463
——Standardization of acid solutions. Randall and Sealione ... 787
——Sulphur dioxide method for hydrocarbon analysis. Rittman and Moore ... 713
Anderson, H. G. S. ... 402
ANILINE DYES:
——British industry ... 124
——Situation. Stone ... 663
——Situation before N. Y. Section Society of Chemical Industry ... 779
——Statistics. Stone ... 710, 828
Anodes, Manganese peroxide. Isherwood (P.) ... 641
Anodes for plating, Patents relating to. (D.) ... 403, 463, 575
Anti-dumping clause ... 705
ANTIMONY:
——Allotropy of. Vosmaer ... 536
——Electrolytic refining. Betts ... 848
——In Mexico ... 633

ANTIMONY: (Continued.)
——Mining in Japan 890
——Price changes 706
——Smelter 402
——Smelter on Pacific Coast 501
——Shipments from Central China 586
Applied Chemistry. Backeland 677
Arc. Flaming. Carbons. Chemistry. Moore. 52
Arc. In vapors and gases at reduced pressures. Darrah 915
Archibald, W. M 978
Arcs. Unstable states in arc and glow. Cady 866
Argall, Philip 340
Argo Mill, Colorado 421
Arizona Copper Co. 40, 207, 290, 535
Arizona smelters. Equipment 904
Aromatic compounds. Electrolysis of. Forbes 212
Armco iron 710
Armstrong, Theodore. (Photo) 130
Armstrong Cork & Insulation Co 792
Army and navy officers go to private plants 519
Aromatic hydrocarbons. Sulphur dioxide. Method of Determination. Rittman and Moore 713
Arsenic trioxide. Vapor pressure of 633
Ashes. Plant and wood for making potash. Bradley 841
Asphalt. Mining and preparing Trinidad. Pierce 697
Assaying. Cupellation losses. Sharwood. (S.) 927
Assaying. Wood-burning furnace. Edmands. (S.) 924
Assay Balance. Mechanical transference of weights 512
Association of Iron and Steel Electrical Engineers 392
Aston, James 340
ATMOSPHERIC NITROGEN FIXATION:
——Clennell 756
——Du Pont (P.) 642
——Landis (P.) 213
——Peacock (P.) 251, 642
——Russia 828
Atmospheric pollution of towns. Kershaw 967
Ault & Wiborg 691
Aurora Mill 16
Austria-Hungary. Chemical industries and the war. Donath and Ulrich. (S.) 639
Automatic Weighing Machine Co 691

B

BADGLEY, C. W 575
Backeland, L. H. (Photo) 708
Bag house for lead smelter. (P.) 122
Bakelite. Suit decision 411, 592
Baker & Co., Inc 64
Baker-Hansen Co 745
Baker Mines Co 947
Baker, J. T., Chemical Co 691, 745
Baker, Charles W 820, 878
Baker, Robt. E 196
Balances. Analytical and laboratory. Christian Becker 631
Banks, John H 267
Barber Asphalt Company. Trinidad asphalt 697
Bardwell, Carlos 402
Bardwell, E. S 462, 520
Barium. Industry in U. S. Toch 710
Barytes 710
Base-metal situation 416
Battery. Two-fluid primary. Regeneration. Hess. (D.) 66
Bausch & Lomb Optical Co 644, 745, 802
Bauxite Production in 1914 546
Beach-Russ Co 691
Beauchamp, F. A 878
Beaver Consolidated Mines, L't'd 473
Becker, Inc., Christian 691
Beckers, W., Aniline and Chemical Works 691
Belmont Milling Co. Tonopah. Jones. (S.) 811
Bender, L. V 131
Bennett, F. A 267
Benson, H. K 646
Benzol plants 481
Benzol Products Co 691
Benzol from California oils 828
Benzol. Statistics 710
Berolzheimer, D. D 340
Beta Iron. Sauveur. (Poem) 352
Bethlehem Foundry & Machine Co 691
Bihn-Jones device for raising liquids 876
Bilharz, O. M 267
Birkinbine, J. L. W 820
Bismuth. Allotropy of. Vosmaer 535
Bit of economic mineralogy 581
Black Oak Mill. Palmer 622
Blake, Lucien I 196, 340
BLAST FURNACE:
——Blast efficiency and regulation. Burman 624
——Carbon bricks. Härden 202
——Charcoal. Wet ores in. Lee 882
——Chemical principles. Johnson ...536, 634
——Copper in Canada 16
——Filling of. Johnson 161, 227
——Handling iron and cinder. Johnson. 43, 85
——Plant auxiliaries and general arrangement. Johnson ...373, 429, 495
——Thermal principles. Johnson 718 787, 833, 905
Blowpipe analysis. Quantative. Richards 137
Blue vitriol from Nichols Copper Co 484
Boiler feed water purification. Brown .. 156
Boiler feed pump 978
Boiler plugs. Tin. Investigation. Burgess. 712
Bolivia. Exports 15
Bomb calorimeter determinations. Effect of high ignition. Voltages. Dittus 480
BOOK REVIEWS:
——Abridged scientific—publications from the Research Laboratory of the Eastman Kodak Co 822
——American Fertilizer Handbook 772
——Bonini. I. Processi Termoelettrici della Si derurgia moderna Forni Elettrici 464

——Wysor. Metallurgy 578
Borax industry. Current status. Dolbear 564
Boric Acid. Neutralization curve of. Prideaux 500
Boron Nitride. Manufacture. Weintraub. (P.) 763
Boronized cast copper. Weintraub 721
Boss mine 15
Bowles, James F. B 340
Bradford, Leslie 874
Bradley, George O 461
Branner, John C 267
BRASS:
——Electro-deposition. Rust. (D.) 196
——Experiences with in civil engineering. Flinn 712
——Failure of structural brass. Merica. 712
——Walenn 196
Braun Corporation 745
Brayton, Edward L 771
Breed, E. M 340
Briber, F. E 267
Brick. Manufacture and tests of silica brick. Seaver 861
Brinell principle testing machine 646
Briquet for use in zinc furnaces. Brooks. (P.) 451
Briquetting fine iron ore. (P.) 120
Bristol Company. Exhibit at San Francisco 398, 745, 832
Britannia linings for hardinge mills. Collins 650
British aniline dye industry 124
British Columbia Copper Co. Brunton. (S.) 509
British Dyes. L't'd 329
British dyestuff industry. Proposed 246
British producer gas and ammonia recovery plant. Lymn 456
Bronze. Aluminium. Bronze alloys. Corse 712
Bronze. Ampco 931
Bronzing processes suitable for brass and copper. Baker 254
Bronze castings as substitute for steel .. 193
Brown Instrument Co 691, 729
Bucyrus Company 585
Buffalo Foundry & Machine Company. 691, 914
Buffalo Mines, L't'd 472, 873
Bunsen Society meeting 965
Burch, Albert 131
Bureau of Mines 586
——Annual report. Holmes 84
——Dinner to Van H. Manning 979
——New director 654
——Outline of past and future service. Manning 652
——Publicity methods 199
——Studies sanitary conditions 577
Bureau of Standards 586
——Branch laboratories 403
Burgess, C. F. Laboratories 267
Burlingame, Walter E 575
Burro Mountain Copper Co. Ore treatment. Addicks 531
Butler, G. Montague 820
Butte-Duluth Mining Co 207
Butte & Superior Copper Company ...13, 207
Butte. Labor conditions 16
Buying and selling of ores and metallurgical products. Fulton (S.). 640
By-product coking 649
Byron Jackson Iron Works 745

C

CALCIUM carbide. Manufacture from carbide fines. Hartenstein (P.). 763
Cadmium. Allotropy. Vosmaer 953
Calcium carbide. New process. Becket. (P.) 642
Calibration. Curve for horizontal cylindrical tanks 511
California and the International Engineering Congress 579
California. Gold and petroleum yield in 1914 847
California. Mineral production in 1914 827
California Slime Extraction Co 617
Callow pneumatic process of flotation 571
Calorimeter determinations. Effect of high ignition. Voltages. Dittus 480
Caloris Company 279
Calorizing metals. Ruder 325
Calumet and Arizona Mining Co 473
Cameron, F. K 978
Cam for stamp mills. (S.) 118
Canada mineral production 662
Canada. Salt industry 846
Canadian Mining Institute 184
Capsule apparatus for sulphuric acid concentration. Mason 17
Carbolic acid 710
Carbolic acid. Extraction from oils of coal tar distillation. Mason 293
Carbolic Acid. Synthetic. Ney 686
Carbon. Determination by the combustion method. Jennings 70
Carbon. Electric furnace preparation. Hennebutte. (P.) 817
Carbon anodes in copper sulphate electrolysis. Addicks 748
Carbon bisulphide. Removal from Coal-gas 239
Carbon bricks for blast furnaces. Härden 202
Carbon dioxide tube lamp. Moore 885
Carbonitride manufacture. Peacock (P.). 642
Carbons, Chemistry of flaming arc. Moore 52
Carbon tetrachloride 710
Carborundum exhibit at Panama-Pac. Expos. 458
Cariman Mining and Milling Co 477
Carnotite ore treatment. Danforth, Samuels and Martersteck. (P.) 187
Carnotite ores. Concentration of 273
Carnotite. Extraction of radium, vanadium and uranium 965
Carstens, C. E 267
Case, Flotation testing machine 930
Casting iron. Johnson 43
Cast iron, Natural chill and its significance in the manufacture of malleable castings. Thrasher 39
Caustic soda. Continuous causticizing in Dorr apparatus 514

CAUSTIC SODA: (Continued.)
——Electrolytic production. Jewell (P.). 506
——Electrolytic production. Allen, Nelson and Jenkins. (P.)..... 815
Celluloid Zapon Co..... 691
Cement. New Plant of Consumers Portland Cement Co..... 846
Cement. Gun process for repairing coke-ovens 416, 529
——Schwarz 582
Centrifugals. Barnicke. (S.)..... 507
Centrifugal pumps 762
Centrifugal pump for thick liquors. D'Olier 512
Chain screen doors for furnace openings 875
Charlton, Thos..... 196
Chemical Catalog Company..... 691
Chemical Construction Co..... 846
Chemical engineering. Beilby..... 545
——Department at Columbia made independent 523
——Independent course at Purdue. Peffer 826
——Use of Hydrometallurgical Apparatus. Dorr 55
——Nitrocellulose manufacture. Stadelman 361
——Versus engineering chemistry. Palmer 203

——Ovens repaired by cement-gun process. 529
Coking of coal at low temperatures. Parr and Olin. (S.)..... 639
Coking coal land speculation..... 68
Collins, George E..... 820
Collins, L..... 820
Colloidal chemistry. Interesting application. Pierce 409
Colloids. Their action on ions during electrolysis. Mutsheller..... 353
——Transference of electricity. Powls.. 964
Color identity method of high temperature estimation. Patterson and Dudding 444
Colorado Fuel and Iron Co. Welfare work 234
Colorado Iron Works Company..... 196
Colorado-metal production in 1914..... 860
Colorado School of Mines..... 42
——Safety and efficiency engineering at 651
Columbia University establishes a separate department of chemical engineering 475, 523
Combustion method for the determination of carbon. Jennings..... 70
Combustion. Surface. Lucke 729
Coming society meetings 782, 884
Complex-ore problem. Is there a? Motherwell 8
Compressed-air gun 416, 529, 582
Compressor. Air. Nash Eng. Co..... 460
Concentrates. Parcel post ruling to affect shipment 526
CONCENTRATION:
——Butchart riffle system. (S.)..... 332
——Callow pneumatic process of flotation 571
——Carnotite ores 273
——Copper and the flotation process.... 133
——Crushing and screening at the Vindicator Consolidated mill..... 142
——FLOTATION:
—— Carbonates by previous conversion into sulphides. Terry. (P.) 63
—— Cons. Arizona Smelting Co.... 897
—— Cyanidation and flotation 880
—— Daly West Mill. Howard..... 600
—— Flotation as a conservation measure 345
—— Historical Notes 471
—— Joplin-Galena slimes. Belchic & Allen 847
—— Liquid jets. du Rell..... 714
—— Mixing drum. Callow. (P.).. 250
—— Park City 527
—— Results. Gahl 408
—— Silver King Coalition 509
—— Silverton, Col..... 348
—— Testing machine 930
—— Timber Butte Mill. Simons..189, 447
—— Suit 409
—— Tests on bisbee and cobalt ores. French. (S.) 509
—— Testing oils for flotation process. Coutts 389
—— Tube milling for flotation process. Easton 89
——Flow of sand and water through spigots. (S.) 120
——Nevada Consolidated Copper Co.... 716
——New riffling for tables..... 819
——Progress in ore-dressing in 1914.. 67
——Richards 728
——Riffling concentration tables 775
——Sulphuric acid. Mason 17
——Tube milling for flotation process. Easton 89

Phosphorus. Removal from tungsten ores. Becket. (P.) 923
Photography. Physics of. Mees 923
Photomicrographic apparatus. Improved 928
Physics of the photographic process. Mees 923
Picric acid. Synthetic. Ney 686
Pierrefeu alain de 462
Pig breaker. Johnson 44
Pittsburgh-Dolores Mining Company.... 12
PLATING:
——Addition agents. Meurant. (D.)... 132
——Adjustment of electrode height. Chapman. (D.) 576
——Alloy of aluminium and gold. Linsenmayer. (D.) 197
——Alloy of nickel and aluminium. Frishmuth and Van Trouk. (D.)..... 197
——Alloy to resist tarnishing better than silver. Cowper, Coles, Altman. (D.) 268
——Aluminium. Corbelli, Jeancon, Williams, Collins. (D.) 341
——Aluminium. Hall. (P.) 570
——Aluminium deposition. Howard. (D.) 197
——Anodes. Digest of patents relating to 403, 463, 575
——Anode frames. Bridgman. (D.)... 575
——Brass. Rust. (D.)..... 196
——Brass. Walenn. (D.) 196
——Brass on iron, steel, and other metals. Thomas. (D.) 268
——Carbons for arc lighting. Bush. (D.) 932
——Cleaning and plating in the same solution. Watts 327
——Cobalt. Kalmus 328
——Coatings of different thicknesses. Forbes. (D.) 771
Woodworth. (D.) 771
——Cobalt 840
——Copper on joints in incandescent lamp. Edison. (D.) 932
——Copper cyanide plating solutions. Weber 255
——Duplicating statuary. Barrie. (D.). 821
——Electric printing of designs on papers and fabrics. Friese-Greene. (D.) 66
——Frame for holding articles. Watrous. (D.) 771
——Hangers. Patent relating to....821, 932
——Interior of pipes. Parmelee. (D.) 772
——Magnetite coating on iron. Hollis. (D.) 65
——Manufacture of tubing. Wood. (D.) 821
——Mold production. Closson. (D.).. 821
——Ornamenting copper and iron. Bay. (D.) 196
——Plating wire-screen cloth. Burrows. (D.) 268
——Protection against reversal. Muller. (D.) 932
——Regulation of thickness of deposit. Bush. (D.) 772
——Silver. Campbell. (D.) 197
——Silver. Matthews. (D.) 771
——Surrounding frame for anodes. Van Winkle. (D.) 404
——Treatment of aluminium surfaces. Roux. (P.) 570
——Use of sulphurous acid. Tossizza. (D.) 132
——Zinc on iron and steel. Alexander. (D.) 268
PLATINUM:
——Boats for carbon determination by direct combustion. Siever 525
——Data on 64
——In Russia 254
——Newspaper chemistry 525
——Ore from Boss mine. Nevada.... 453
——Recovery in mint 16
——Refineries in Russia 585
